	<hr/> \$20.48

Total expenditure, \$241.55

Tools in my possession and belonging to the town of Webster: Three drills, one sledge hammer, one hand hammer one steel bar, two bush hooks, two spades and one hoe.

Respectfully submitted,  
 GEORGE S. SCRIBNER,  
 Road Agent.

### SCHOOL REPORT.

As there was actually remaining in the school treasury, after paying Mr. Connolly for teaching the winter term, over \$130 on the first of April 1898, your committee saw fit to use a part of the 5 per cent, which the law allows them to use for repairs, in making needed renovations in some of the school rooms.

Accordingly something was done in this line in three of the school rooms, viz, Corser Hill, Bashan and Putney Hill.

The improvement accomplished we believe was such as to warrant its continuance and extension to other houses during the coming year, and that this may be done without shortening our schools we recommend that a small sum be appropriated by the District for these repairs, or for the general school fund, which would accomplish the same object by virtue of the 5 per cent allowed for repairs.

The schools for the past year we believe, have, as a whole, been quite as successful as the average heretofore. It has been our policy to employ teachers of experience or

special training, when it was possible to secure such with the salary which we were able to pay.

During the year covered by our report to the State Superintendent of schools, viz, from August 1897 to August 1898, there were taught in the District six schools of twenty-five weeks each during which five pupils were not absent or tardy, a roll of honor which it is hoped will be materially lengthened next year. The largest number of scholars enrolled in any one term was 18 and the smallest number was 6, but in five-sixths of all the terms for the year the number enrolled was 12 or less, thus showing a steady decrease in the size of our schools, a fact which must operate toward a still further reduction in the number of schools to be maintained in the near future. The average wages of teachers during the year has been six dollars per week, including board. Finally, our experience has proved that the interest of both teacher and pupils must be in their school work, in order to obtain satisfactory results, and that in proportion as the interest of either lags, the school suffers, and further that a most powerful factor in creating and sustaining this condition is the full interest taken in the welfare of the schools by parents and others who have the home care of the children.

Respectfully Submitted,

HENRY DODGE,

Chairman of the School Board

Webster, N. H., Feb. 15, 1899.

# REPORT OF THE TREASURER OF THE WEBSTER SCHOOL DISTRICT FOR THE YEAR ENDING FEB. 15, 1899.
